I am a systems engineering student with a profile oriented towards software development. I have experience in creating web and mobile applications using modern technologies such as React Native, NestJS and PostgreSQL. Focused on continuous improvement and collaboration in agile teams. I look for opportunities to apply my skills and contribute to the success of innovative projects.

PROFESSIONAL EXPERIENCE

Corporación Universitaria Rafael Nuñez   **Cartagena,Colombia**
Junior FrontEnd Developer   *August 2023–December 2023*

- Development of a new interface for the university website using Javascript, PHP, SQL, HTML, CSS and Joomla
- Collaboration with teams that use the agile Scrum methodology
